

SAMS Integration:

Short summary - A button in the “Events” tab is now available. This button will be available for you to synchronize automatically the data regarding your club’s events. As of today, we support the following championships:

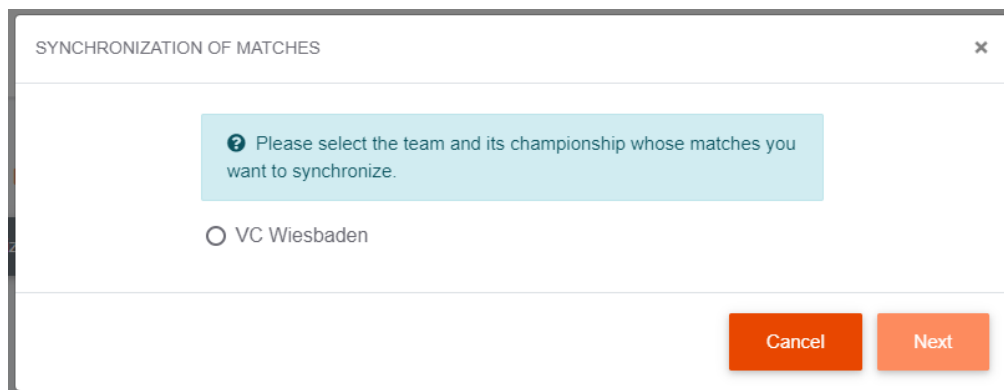

- The Bundesliga Frauen 1.
- The Bundesliga Frauen 1 Playoffs.
- The Bundesliga Manner 1.
- The Bundesliga Manner 1 Playoffs.
- The Pokal Frauen.
- The Pokal Manner.
- The Supercup Frauen.
- The Supercup Manner.

A step by step explanation of the importation process:

1. You will have the « Synchronization » button appearing in the « Events » tab.

2. Once you click on it, you will have to select the team you want to synchronize:

3. Once you click on it, you will have to select the championship you want to synchronize:

SYNCHRONIZATION OF MATCHES

?

Please select the team and its championship whose matches you want to synchronize.

VC Wiesbaden

Championship(s)

1. Bundesliga Frauen

Cancel

Next

4. Once you click on “Next” you will have to choose the seasons you want to synchronize:

SYNCHRONIZATION OF MATCHES

?

Please select the season you want to synchronize from your data provider.

Season

2020/21

?

The selected season does exist on the bFan platform, you can go to the next step.

5. Once you click on “Next”, you will have to choose the matches from the season you selected previously. This list of matches will be split in two between the new ones which you will be able to synchronize and the ones which have been synchronize previously. Thus, if some events have not yet been synchronized, two list should appear. You will then be able to update the ones synced previously:

SYNCHRONIZATION OF MATCHES

The events below have already been synchronized, please select the ones you want to update.

☐ Select all

☐ [10/4/20 2:30 PM] USC Münster / VC Wiesbaden

☐ [10/10/20 7:00 PM] VC Wiesbaden / NawaRo Straubing

☐ [10/24/20 7:00 PM] VC Wiesbaden / Ladies in Black Aachen

☐ [10/31/20 6:00 PM] Schwarz-Weiß Erfurt / VC Wiesbaden

☐ [11/14/20 7:00 PM] VC Wiesbaden / SC Potsdam

☐ [11/21/20 4:30 PM] VC Wiesbaden / SSC Palmberg Schwerin

☐ [11/28/20 7:00 PM] Rote Raben Vilsbiburg / VC Wiesbaden

☐ [12/5/20 7:00 PM] VC Wiesbaden / Dresdner SC

☐ [12/12/20 7:30 PM] Allianz MTV Stuttgart / VC Wiesbaden

☐ [12/19/20 7:00 PM] VC Wiesbaden / VfB Suhi LOTTO Thüringen

☐ [12/27/20 7:00 PM] VC Wiesbaden / USC Münster

☐ [1/2/21 7:30 PM] NawaRo Straubing / VC Wiesbaden

☐ [1/16/21 12:00 AM] Ladies in Black Aachen / VC Wiesbaden

☐ [1/28/21 8:00 PM] VC Wiesbaden / Schwarz-Weiß Erfurt

☐ [1/30/21 4:30 PM] SC Potsdam / VC Wiesbaden

☐ [2/6/21 4:30 PM] SSC Palmberg Schwerin / VC Wiesbaden

☐ [2/13/21 7:00 PM] VC Wiesbaden / Rote Raben Vilsbiburg

☐ [2/20/21 4:30 PM] Dresdner SC / VC Wiesbaden

☐ [3/6/21 7:00 PM] VC Wiesbaden / Allianz MTV Stuttgart

☐ [3/13/21 7:00 PM] VfB Suhi LOTTO Thüringen / VC Wiesbaden

6. Once the matches are selected, you will have to choose the options which will be applied for all the selected events to be synchronized (For example: enabled check-in, event’s sponsor, publication of the event, etc.):

SYNCHRONIZATION OF MATCHES

?

You can configure certain options for your events to be synchronized.

☒ Match between two teams?

☒ Enable stadium services

☒ Fans can upload images

☒ Enable checkin for fans

☒ Fans can send predictions

☒ Show "live" tab

☒ Publish events?

☒ Show "chat" tab

LOCATION

Checkin start time

120

Checkin radius

350

?

The number of minutes fans can check themselves in before the event.

?

Under 100 meter radius geolocation precision might be difficult if there is no wifi service, it will also consume more power.

OTHERS

Sponsor ⓘ

None

- Then, if you have selected some events synced previously to update, you will be able to see checkboxes to select the fields which you want to overwrite with this update process (for example: to change a custom sponsor for a match, a custom location, etc.):

SYNCHRONIZATION OF MATCHES

?

You can select the information that will be overwritten when updating existing events.

☒ Fans can send photos

☒ Start / end dates

☒ Fans can make predictions

☒ Title

☒ Publication

☒ Description

☒ Stadium services

☒ Location

☒ Checkin for fans

☒ Start of checkin

☒ "Live" tab

☒ Checkin Radius

☒ "Chat" tab

☒ Sponsor

Cancel

Synchronize

- Then you will have an "Synchronize" button to complete the data importation.

9. All those seasons and events selected will first appear only in your back-office platform if you do not activate the “Publish this event” button. This is to give you the possibility to review them before pushing them to the mobile application for the fans to see.

EVENT CONFIGURATION

- | | |
|---|---|
|  Match between two teams? |  Enable stadium services |
|  Fans can upload images |  Enable geo-checkin for fans |
|  Fans can send predictions |  Show "live" tab |
|  Publish this event? |  Show "chat" tab |
|  Cancel this event? | |

Note that: If you want to change some details regarding the match (for example: the localization, etc.) you will have to take over the event manually to change those specific details. Thus, you will have to take over them detail per detail.

Furthermore, it is important to note that, an event which was created manually (ex: a friendly match) will never be modified or updated by the synchronization process.

Thus, we ask you for the moment **NOT TO ADD** any of the following elements to your dedicated back-offices as they are directly imported from the SAMS servers:

- Seasons' calendars.
- The championships.
- Events.
- Events' IDs.
- Events' descriptions.
- Events' scores (They will be synchronized with the SAMS's server when you do a synchronization at the end of each match).
- Events' localizations.
- Events' dates and times.
